Estimated delivery: [X working days/weeks]. Timeline is subject to timely inputs, feedback, and approvals from the client.

4. Iterations Included

This scope includes [X] rounds of revisions.

Revisions include minor updates, alignment changes, content corrections, and refinements within the agreed scope.

Additional revisions or major changes may impact cost and timeline.

5. Out of Scope

The following are not included unless agreed separately:

- Any work not mentioned in the scope above
- Major design or direction changes after approval
- Additional features, scenes, pages, or deliverables
- New asset creation unless specified
- Third-party integrations
- Extra revision rounds beyond the agreed limit

6. Acceptance Criteria

A deliverable is considered complete and accepted when:

- All items in the Scope of Work are delivered and accessible.
- Everything works as specified, with no critical errors.
- The output matches the approved designs and brand guidelines.
- It runs on the agreed target browsers and devices.
- All client-supplied content is correctly represented.

Deliverables are deemed accepted once the client confirms in writing, or if no written feedback is received within [X] business days of delivery.
